

March 2012

As parents, we stressed about where we were going to send our son to Preschool. We understand the importance of an early start for children, but how do you hand over your child to someone else? After talking to my doctor I found out she sent her kids to Kinderchicks Preschool and she referred me to Mrs. Mary. She only had the best things to say about her and the school.

Where do you begin to define JOY, PEACE of MIND, LOVE and KINDNESS? Well it begins with Mrs. Mary. It's been a pleasure to have her in our lives. Family and friends have often asked "How is Julian liking school?" I always answer "he loves it!" He comes home singing new songs and shares his day with us. She is truly blessed with the gift of love for not only our son, but all the children at her school. She shows love for these children as if they were her own. I sense these children feel they are special to her and she projects that feeling to each of these children. I call her the Pied Piper of children. We can't imagine our son attending school anywhere else.

She gives JOY to our son by always encouraging him to be the best he can be. She always makes him feel safe and secure.

She gives PEACE OF MIND to us as parents knowing that he is safe while under her care.

She gives LOVE to our son as if he is the only one.

She is full of KINDNESS and always has time to talk to all the parents about their questions and concerns.

We've often consulted with her on different behavioral phases that our son was going through at home and she always had an encouraging way to handle the situation. Her advice has turned out to be priceless.

With her leadership as a teacher our son learns something new every day. We are astounded at how well he expresses himself and the manners he has been taught at school.

We look forward to sending our younger son Jacob to her school in June 2012.

Sincerely,

Julie & Regina (The parents of Julian NR Placencia)
